HD LED TV with built-in DVD player

MR. POPPER'S penguins
OWN IT ON BLU-RAY & DVD

Why keep the best pictures in your living room? The Toshiba DL933/934 series suits any room and still delivers top quality viewing. LED technology conjures crisp HD images from a slim design, while an integrated DVD player, digital tuner and USB playback save space. The choice of screen sizes and colours mean it will blend in anywhere.

DVD

Sometimes one TV is just not enough. The Toshiba DL933/934, with integrated DVD player, puts an end to those tricky conversations about who gets to watch what. Now, everybody can watch their favourites with HD quality and LED clarity. It's an entertainment hub that can save space in any room.

LED Backlight

The DL933/934 offers strong colours, rich contrast and clear images. A choice of screen sizes and black or white colour options mean it works wherever you want it – the kitchen, kids' room, study or bedroom. Thanks to LED backlighting, all models are very slim in design and highly energy efficient.

DUALTUNER USB

Turn your TV into so much more. The DL933/934 series comes with two HDMI ports and a USB connection. Simply plug in your console, computer or set-top box and you're ready for gaming, HD movies or music. Of course, if you simply want to watch TV, the integral tuner puts a full range of free channels at your command.

The DL933/934 series mixes good looks with the reassurance of Toshiba quality. The slim design and colour choice of black or white will enhance any room. Beneath its elegant exterior, Toshiba expert engineering ensures it is reliable and affordable to run.

Product design and specification subject to change or modification without notice. Specification correct at time of publication. Please check specification with retailer prior to purchase.
